

International Airport Operations English

Designed to meet the English-language training requirements of international civil aviation specifically airport operations personnel. AdonBrit offers a short-course programme for international airport operations professional English-language communication skills.

AdonBrit curriculum has been devised to meet the specific training objectives of international airport operations personnel. At all levels, students are encouraged to broaden their range of operational and organizational skills. The programme provides instruction and practice in the day-to-day language skills necessary for international airport operations personnel. Language acquisition through active participation in practical coursework is considered fundamental to the learning process.

Absorbing, stimulating and wide-ranging in its delivery and content, the specialized training in English language aviation vocabulary, terminology and phraseology has as its focus the development of an increased understanding of the functional communication skills required by international airport operations personnel for the safe and effective management of international flights.

Course Special

The small number of students per class ensures effective teaching with the flexibility to meet your individual needs, in a comfortable and friendly atmosphere. You have a progress test and a personal tutorial with your principal teacher each week.
