TOEFL iBT

(Test of English as a Foreign Language - Internet Based Test)

The test requires the student to use all the skills together - for example, speaking in response to listening or reading, writing in response to listening. Rather than focusing on skills in isolation, the student will develop all the skills simultaneously, exercising their overall ability to communicate in English.

The new test, iBT (internet-based TOEFL), assesses the student's ability to function in an English-language college and university. They've eliminated the grammar section, and placed a new emphasis on communication.

TOEFL iBT Preparation Program was developed for this single purpose: to give students the guidance and practice they need to put all their English skills together. Students will learn test-taking strategies, communicate in complex, meaningful ways, and develop the confidence they need to meet their full potential.

Course Details

- * **Listening Comprehension** - Develops the student's ability to understand spoken English and familiarizes the student with the type of listening exercises on the TOEFL iBT.
- * **Written Expression** - Allows the student to improve his/her written fluency and accuracy on any topic and in response to a wide variety of material.
- * **Vocabulary and Reading Comprehension** - Develops the student's ability to understand written English with a focus on vocabulary expansion and reading strategies.
- * **Spoken Expression** - Helps the student develop his/her ability to speak about any given topic in correct and meaningful English.
- * **Test Strategy** - Review of various test strategies along with practice exercises will help the student succeed on the TOEFL.
- * **Skills Integration** - The iBT test requires that students use all of their skills together - for example, speaking in response to listening or reading, writing in response to listening.

TOEFL iBT Preparation program is designed to develop student's all their skills together, exercising their overall ability to communicate in English.
